

Hollyland Solidcom C1

Quick Guide

V1.0.0

INTRODUCTION

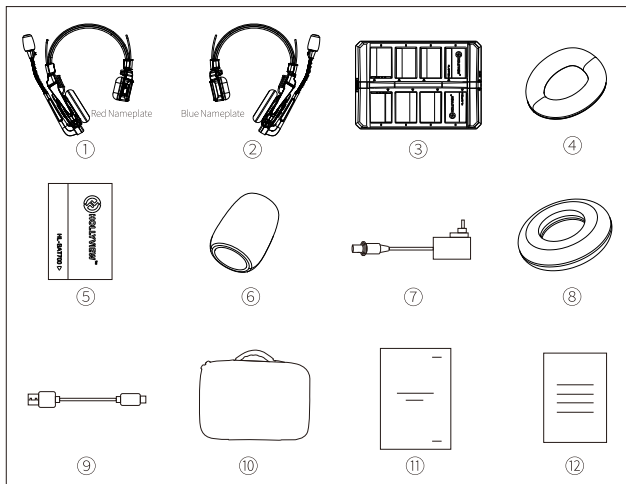

Thank you for purchasing Hollyland Full-duplex Wireless Intercom System.

The Solidcom C1 full-duplex wireless intercom headset system, adopting the advanced DECT 6.0 technology, is Hollyland's first true wireless and self-contained headset communication solution with exceptional sound clarity.

The system operates in the 1.9GHz band, providing a reliable transmission range up to 1000ft (350m) radius (LOS).

This Quick Guide will guide you through the installation and use of the equipment.

PACKING LIST

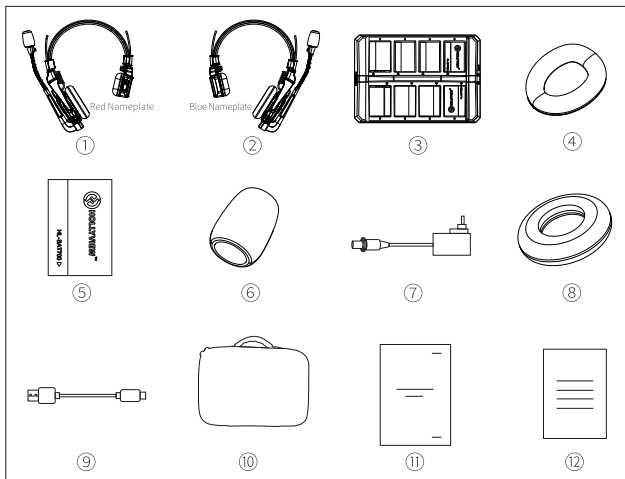

Solidcom C1 - 4S 4-person Headset Intercom Package

① Master Headset (with red nameplate)	x1
② Slave Headset (with blue nameplate)	x3
③ Charging Case	x1
④ Over-ear Leather Cushion	x4
⑤ Battery	x8
⑥ Microphone Cushion	x4
⑦ DC Adapter	x1
⑧ On-ear Foam Cushion	x4
⑨ USB Type-A to Type-C Cable	x1
⑩ Storage Case	x1
⑪ Quick Guide	x1
⑫ Warranty Card	x1

Note: The amount of the items listed above depends on the edition.

Use the approved battery and adapter specified by the manufacturer. Please use appointed battery in case of explosion risk, please dispose of lifeless battery under guidance.

PACKING LIST

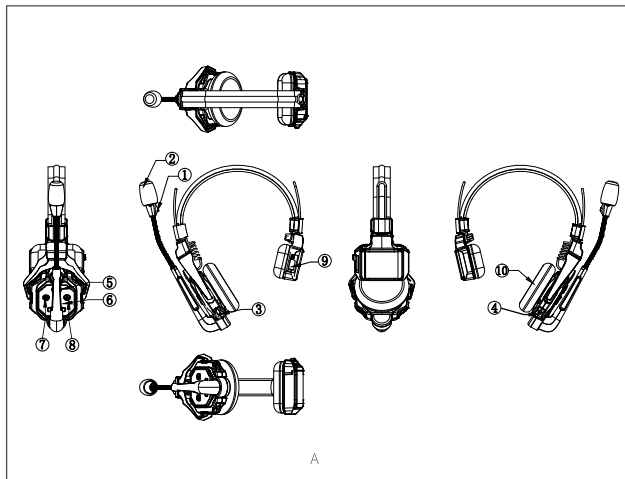

Solidcom C1 - 6S 6-person Headset Intercom Package

① Master Headset (with red nameplate)	x1
② Slave Headset (with blue nameplate)	x5
③ Charging Case	x1
④ Over-ear Leather Cushion	x6
⑤ Battery	x12
⑥ Microphone Cushion	x6
⑦ DC Adapter	x1
⑧ On-ear Foam Cushion	x6
⑨ USB Type-A to Type-C Cable	x1
⑩ Storage Case	x1
⑪ Quick Guide	x1
⑫ Warranty Card	x1

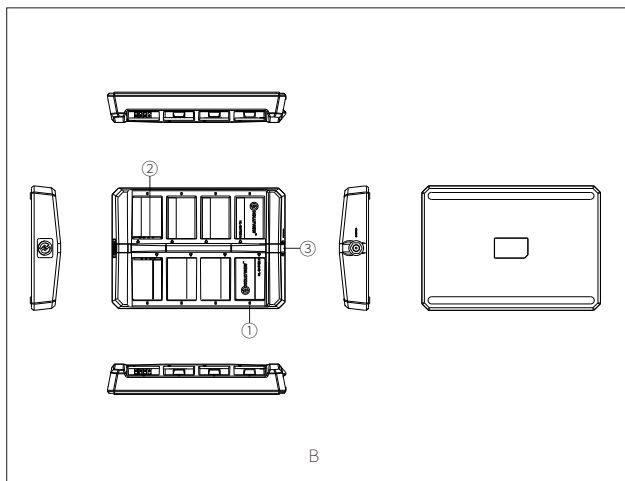

Note: The amount of the items listed above depends on the edition.

Use the approved battery and adapter specified by the manufacturer, Please use appointed battery in case of explosion risk, please dispose of lifeless battery under guidance.

A Headset Interface

- ① Power/Connection Indicator
- ② Microphone - Mute/unmute microphone by moving microphone boom up/down
- ③ USB Type-C Interface - for firmware upgrade
- ④ Power Button
- ⑤ Volume + Button
- ⑥ Volume - Button
- ⑦ A Button - Long press for 5 seconds to pair
- ⑧ B Button - Only functions when using with the HUB station
- ⑨ Battery Compartment
- ⑩ Speaker

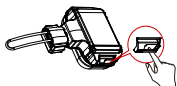

B Charging Case Interface

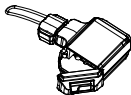

- ① Charging Indicator Orange: Charging in progress Green: Fully charged
- ② Charging Contacts
- ③ DC Charging Interface

QUICK GUIDE

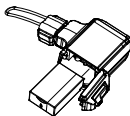

① Install the batteries.

Step1:Slide the battery compartment cover lock

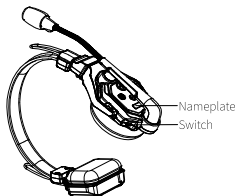

Step2:Open the cover

Step2:Place the batteries into the compartment and close the battery cover

② Turn on the Master Headset and Slave Headsets.

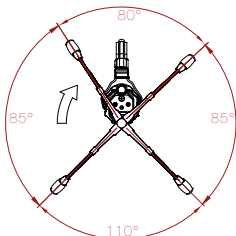

Master Headset in Operation

1. Ensure the headsets are all turned on when using Solidcom C1 full-duplex wireless intercom system.
2. The indicator light stops flashing and turns to static green when the Master Headset is paired with the Slave Headsets.
3. The Master Headset is fitted with a red nameplate while the Slave Headset is fitted with a blue one.

③ Turn on microphone.

Range within which the Microphone is in Mute

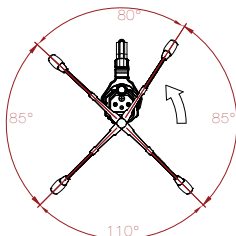

Microphone mute range when moving the microphone boom upward clockwise

Range within which the Microphone is in Mute

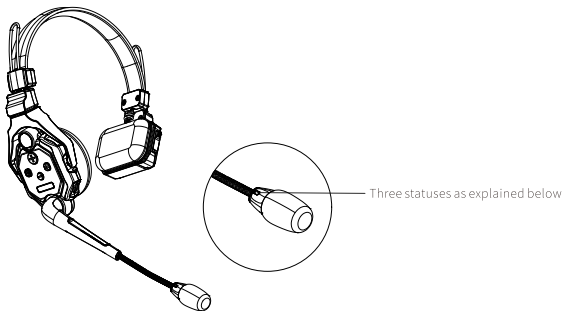

Range within which the Microphone is in Talk

Microphone mute range when moving the microphone boom downward anti-clockwise

④ The Solidcom C1 system is now ready for use.

Microphone Status Indicator

- 1. Indicator Light Flashes Green:** Disconnected (for Slave Headsets)
- 2. Indicator Light Stays Green:** Slave Headset(s) connection successful
(by default, the Master Headset's indicator light will light up when turned on)
- 3. Indicator Light Flashes Red:** Low battery level

Pairing

All Slave Headsets and the Master Headset come in one package will auto pair up right out of box. Manual pairing is only required when there is a need for adding new headset to the system. During the pairing process, please turn on all the headsets to ensure all the Slave Headsets are connected.

- 1. Long press the A Buttons on the Master Headset and Slave Headsets for 5 seconds, the indicator lights on the headsets' microphone booms will flash green. Please wait for the device to complete the pairing.
- 2. The indicator lights on the headsets' microphone booms become static green when pairing succeeds.
- 3. One Master Headset can be paired with 5 Slave Headsets in maximum.

Solidcom C1 is extremely versatile and can be applied in a variety of scenarios. For more information of how to operate this system, please check out on:

PARAMETERS

Transmission Range	350m (1000ft) Line-of-Sight
Frequency Information	Frequency band: 1.9GHz DECT (varies by country and region) Modulation mode: GFSK Transmit power: <21dBm (125.9mW) (varies by country and region) Receiving sensitivity: <-90dBm
Transmission Latency	<35ms
Battery Capacity	700mAh (2.66Wh) Li-Ion battery
Runtime	Slave headset: \approx 10h Master headset: \approx 6h (when connected with 3 slave headsets) Master headset: \approx 5h (when connected with 5 slave headsets)
Charging Time	\approx 2.5h
Frequency Response	150Hz~7kHz
Signal-to-Noise Ratio	>55dB
Distortion	<1%
Microphone Type	Electret
Maximum Input Sound Pressure Level	>115dBSPL
Output Sound Pressure Level	98 \pm 3dBSPL (at 94dBSPL 1kHz)
Net Weight	\approx 170g (batteries included)
Working Temperature	0 \sim +45°C (Working Status) -20 \sim +60°C (Storage Status)

Note: The frequency band and transmit power varies by country and region.

SAFETY PRECAUTIONS

Do not place the headsets near or inside heating devices (including but not limited to microwave ovens, induction cookers, electric ovens, electric heaters, pressure cookers, water heaters, gas stoves) to prevent the battery from overheating and exploding.

Never use non-original charging cases, cables and batteries with the product.

The use of non-original spare parts may cause electric shock, fire, explosion or other dangers.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference.
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The device has been tested and comply with FCC SAR limits.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
